

ASSESSMENT REPORT

Developing Single Page Application Using React -
On-The-Job Evaluation[201-INTERMEDIATE]

(ATHDW309473)

Associate Name : Venkatesh.Bandaru@cognizant.com

Associate ID : 2081120

ASSOCIATE OJT ASSESSMENT REPORT

Developing Single Page Application Using React - On-The-Job Evaluation[201-INTERMEDIATE]

ASSOCIATE NAME :

Venkatesh.Bandaru@cognizant.com

STATUS : Not COMPLETED

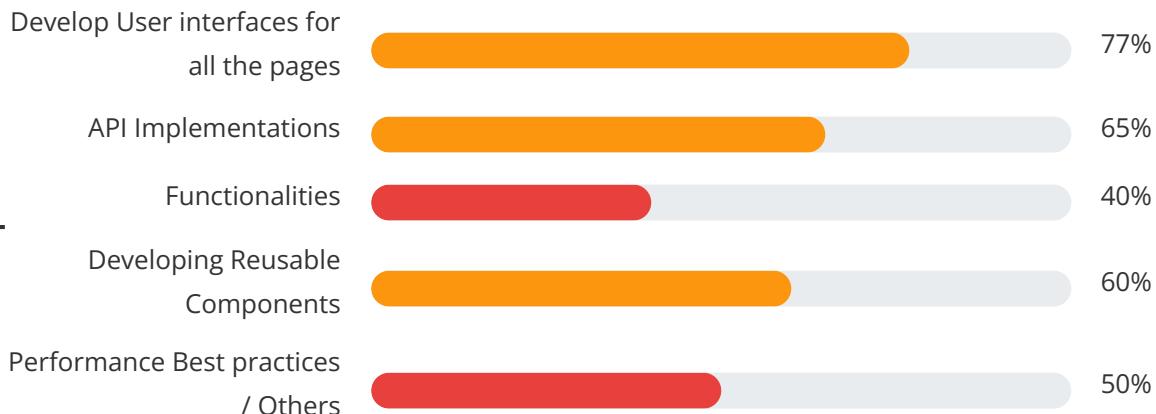

ASSOCIATE ID : 2081120

Observation Notes :**You have to improve on the below topics:**

- Develop User interfaces for all the pages
- API Implementations
- Developing Reusable Components

You have to focus more on the below topics:

- Functionalities
- Performance Best practices / Others

Overall Score: 56/100**Skill analysis****Topics**

Understanding The Report :

The overall skill Completion Criteria for the assessment is 60% or above.

Skill Analysis :

Measures the extent to which the associate can apply his/her hands-on capability to practical applications. Also, analyzes the ability to apply it in a business environment with pre-defined design constraints. A lower scale indicates lesser ability to apply the hands-on experience.

Skill Graph :

The indication of bars in the Skill graph is a relative indication of your performance on the skill topics. Skill Analysis will not be displayed if the associates have not scored in the skill section of the assessment.

Legend :

- █ Green Bar indicates that you have been able to demonstrate your skill level in that topic well.
- █ Orange Bar indicates that you had attempted to demonstrate your skill level in that topic, however it needs improvement.
- █ Red Bar indicates that you need to focus more on these topics to be able to demonstrate your skill better in the next attempt of the OJT assessment based on the completed or not completed status.
- █ Grey Bar indicates that you either not answered or not scored.
